

# LALU Airbrush Line

## Mini Air Compressor with cover

The Mini Air Compressor with Cover is a versatile tool designed for both full-body tanning and precise contouring of the face and body. Its small, precision pen spray nozzles allow for detailed application, ensuring even coverage in targeted areas.

Additionally, the compressor can accommodate two spray pens simultaneously, enabling you to use two different tanning solutions at once—ideal for customizing shades or offering multiple treatments in one session.

This compact and efficient device is perfect for professionals looking to streamline their process without compromising on quality.
